

Goal: Software Product Companies

Google

amazon

Microsoft

Walmart

Flipkart

NETFLIX

Adobe

LinkedIn

Qualcomm

What kind of people they are looking for?

- People who have good thinking ability to solve problems
- People who have good coding skills to convert the ideas to software products
- People who can learn new things by themselves or with minimal support

Three Mantras

Mantra1: Problem driven Learning

- Problem First -> Thinking Next ->
Convert Thought to
Code(Experiment)
- Obstacles:
 - Your past/current memory driven mindset
 - Fear

Mantra2: Now or Never

- Action should speak, not the words
- Obstacles:
 - Physical Laziness
 - Mental Laziness

Mantra3: Career First MindSet

- 21st century is all about knowledge or mind or technology workers
- Obstacles:
 - I am a girl/woman
 - Lack of passion

Execution Plan

- Applied Language Coding (Level-I)
- Competitive Coding (Level-II)
- Competitive Coding (Level-III)
